CarMD.com Corp. Expands; Moves Into New Headquarters

FOUNTAIN VALLEY, Calif. – CarMD.com Corp., is pleased to announce that on Sept. 1, 2009 it will officially moved into its new headquarters, located at 11245 Young River Ave., in Fountain Valley, Calif. The 8,200-square foot building, previously leased by All Pins & Punchers, features approximately 3,200-square-feet of office space and 5,000-square-feet of warehouse space. It will house the company's quickly expanding marketing, web development, research and development, and shipping and fulfillment teams.

During the past year, CarMD.com Corp. has shored up its staff by adding several new full-time employees led by Art Jacobsen, new director of business development. Jacobsen, who served as project leader on several Honda vehicles, is a 20-year veteran in automotive testing and new product development related to making vehicles and emission control systems operate more efficiently. The company tapped Richard Amador as director of marketing. Amador has nearly 20 years of marketing experience in the engineering, automotive and medical fields, including 11 years with Equus Products, Inc. CarMD has also hired Hoi Nguyen as web designer. Nguyen, who has extensive experience and a formal education in all aspects of website design and development, has the lofty task of redesigning CarMD's website to meet its expanding functionality and goal to become a premier automotive portal. The company is also looking to hire several positions later this year, including a "Tweet-tern" or social media intern to increase the company's presence on, and involvement with Twitter, Facebook and other emerging technologies.

"This move is just the beginning of what we expect to be a whirlwind year for CarMD," says Jacobsen. "We have several major ventures planned in the coming months, including new products, platforms, partnerships and marketing initiatives, as well as a completely revamped website designed to offer our customers – and drivers in general – more practical information about how to keep their vehicles healthy and lower maintenance costs."

Founded in 2006, CarMD is the first company to provide consumers with both the tools and information they need to monitor their vehicles' health. The award-winning CarMD® handheld device and software kit works on all 1996 and newer OBD2 cars, light trucks, SUVs and minivans manufactured for use in the U.S. – foreign and domestic. The easy-to-use tester can be used to quick check an unlimited number of vehicles. Within seconds, its Vehicle Health Monitor™ LEDs (green, yellow, red) tell the driver if the vehicle's systems are running normally, which is beneficial when inspecting a used car, preparing for a road trip or getting ready for an emissions "smog" check. When a problem is found CarMD customers gain access via their computer and own Internet connection to an unprecedented diagnostic database that lets them run a report with probable cause and estimated repair costs.

About CarMD.com Corp.

The mission of Fountain Valley, Calif.-based CarMD.com Corp., is to empower consumers by providing the tools and information needed to make better-educated decisions about their vehicle's health and maintenance. Distributed by CarMD.com Corp., CarMD costs \$98.99 and is available in the U.S. direct to consumers via two convenient options: 1) toll-free phone: 888.MyCarMD (888.692.2763), or 2) online at www.CarMD.com. The product is supported Monday – Saturday from 6 a.m. to 6 p.m (PST) by ASE Certified Technicians based in the U.S.A.
